Charity Purpose: This account was established to provide additional events; social, residential or sporting, for the students of Les Voies. These events would be activities that are not within the parameters of the school budget. Our designated PTFA will also help with this.
We have recently set up a nutrition programme here at les Voies. This provides a hot lunch for our students with is not covered by the School budget. Our aim is to be able to continue to be able to provide our young people with this service.
