Charity Purpose: The purpose of CLIC Sargent is that no family should face cancer alone when they are coping with a young person with cancer. We support the young people with cancer (from babies to under 25 year olds) and their families. Each young person diagnosed in Guernsey with cancer is treated at a Principle Treatment Centre in the UK, usually Southampton but sometimes other hospitals such as Great Ormond Street or Bristol Children's Hospital. Each young person from Guernsey is assigned a specialist CLIC Sargent Social Worker who supports them and their family in various ways, tailored to their needs. Support is practical, financial and emotional. We also have "Homes from Home" such as Jean's House in Southampton or Paul's House in London where families can stay for free as long as they need to. This helps families financially but also means they can be close by to the hospital.
