Non-Profit Organisation Purpose: The Sleep Better Live Better Foundation aims to provide evidence-based education, tools and products that can support the community to improve health-related outcomes through achieving better sleep. Our vision is to be part of the transition to a time where every islander can reach their full potential to feel healthy, happy and loved, because their day has begun on the foundation of a good night's sleep.

The foundation seeks to highlight and address core issues affecting childrens', adolescents' and adults' sleep through the promotion of evidence-based interventions that have been scientifically demonstrated as having positive impacts on both sleep quality and quantity. The foundation aims to provide these health-improvement interventions within the community at zero cost to the consumer.
