Charity Purpose: Humanitarian Aid Guernsey was founded on the simple premise of a mother's love. Natalia Silvester is Polish born and responding to the horrific images of children in war torn Ukraine pouring over the border into her homeland, she reached out to Polish charities to offer help. Humanitarian Aid Guernsey is a non profit organisation giving local people an opportunity to donate items specifically requested by charities on the front line. With vans and logistics in place this essential aid can be sent directly to the border. Going forward this charity will look to offer aid to other refugee crisis around the world driven by the same ethos – 'immediate aid where it is most needed'.
