**Charity Purpose:** To charitably fund Anthony McMahan's life changing reconstructive surgery with Dr. Dror Paley in West Palm Beach, Florida. Anthony McMahan was born with bi-lateral proximal femoral displaysia. In 2008 Dr Paley reconstructed his right leg successfully. Since then he is still waiting his second half of surgery. The charity raises funds to ensure his second half of surgery is realised avoiding amputation of his left leg supported by a life time of prosthetics offered by HSSD.
